Pages	All titles 72 pages.
Binding	Perfect bound.
Illustrations	Black and white throughout.
Format	Paperback.
Publisher BIC Code	YFVB.
ISBN	(See list overleaf.)

The Books

A range of short, emotive stories that gallop through action-packed plot lines. These high-action novels, featuring realistic characters, will keep your students engaged chapter after chapter. Dynamic writing hooks the reader quickly so even those who find regular novel-reading an absolute chore stay completely immersed in the story.

The Authors

Paul Kropp, Lori Jamison and other selected authors have called on 25 years of experience in education and literacy techniques to formulate this range of 12 stories for primary school children, which give breadth as well as depth to reading enjoyment.

Reading Levels

Proven techniques include carefully controlled reading levels every 100 words, so a student who can read page one can read every page of the story. Also, adjusted layouts eliminate most hyphens and distracting white spaces. Importantly they look just like regular books, and their social message can benefit gifted as well as less able readers. (See chart overleaf for guide to Reading Age.)

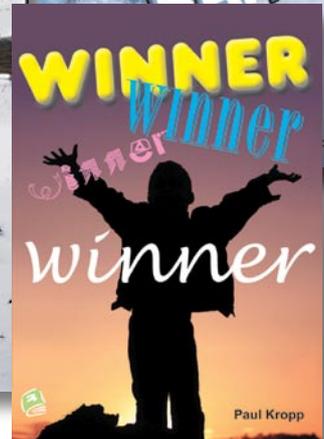

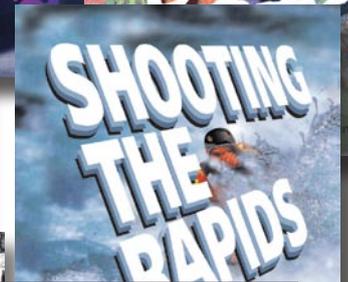

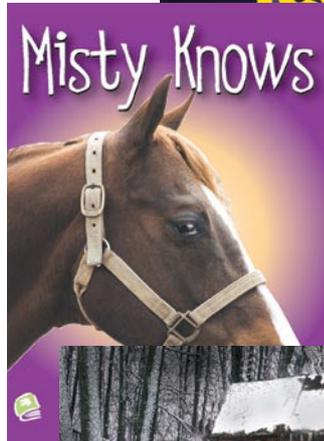

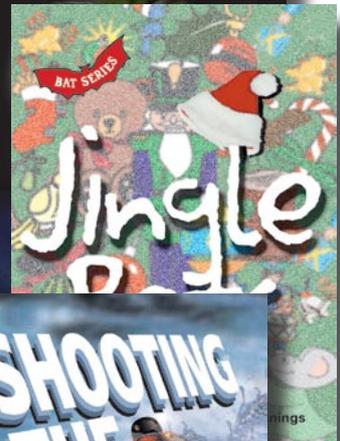

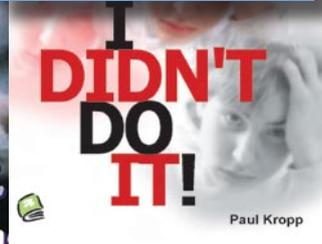

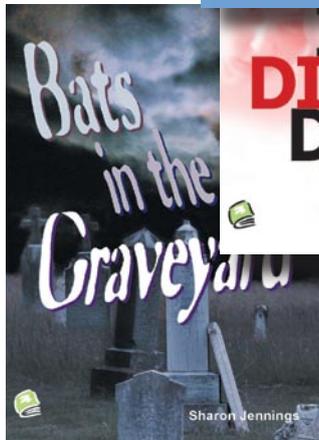

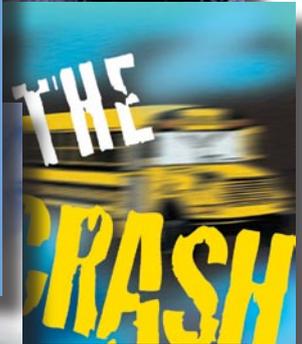

Accelerated Reader Programme

Every book in this series has been tested for the Renaissance Accelerated Reader Programme. (See chart overleaf.)

A Teachers' Handbook for every title!

Each book has a corresponding photocopyable Teachers' Handbook which includes activities for before and after reading, plot synopsis, character analysis and other enjoyable comprehension exercises.

Read books with more life * Read books with more life * Read books with more life * Read books with more life
